

DeakinAir

Using the Timeline function in edit mode

There may be a time when you want to insert a slide into your video. This can be done using the timeline function in DeakinAir.

Follow the instructions below to add slides to your clip. Be aware there is no way to edit the slide once it is added, so it will be visible for the duration of the video.

1. If using DeakinAir go to **My Media** under your name heading, and you will see the clips list. If you are accessing your video from within CloudDeakin select **My Tools** from the unit site Navbar and click on **DeakinAir**. Select **Edit**.
