Deakin Teaching Capability Framework

PSF Areas of Activity

A1 LEARNING DESIGN	A2 TEACH AND SUPPORT LEARNING	A3 ASSESSMENT AND FEEDBACK
<p>Design and develop learning materials and activities that are engaging, inclusive and accessible in collaboration with teaching teams.</p> <p>Develop capability building activities and innovations to support teaching teams to enhance learning design.</p>	<p>Collaborate effectively with teaching teams to support student-centred, active and inclusive teaching practice in a range of contexts.</p> <p>Evaluate and implement educational technologies and innovations for teaching and learning in collaboration with teaching teams.</p> <p>Develop capability building activities and support for teaching teams to enhance their practice.</p>	<p>Design and develop authentic, accessible and inclusive assessment tasks and rubrics utilising a variety of assessment types which support learners to develop evaluative judgement and encourage academic integrity.</p> <p>Evaluate and implement educational technologies and innovations for assessment and feedback in collaboration with teaching teams.</p> <p>Develop capability building activities and support for teaching teams to enhance their assessment and feedback practice.</p>
A4.1 LEARNING ENVIRONMENTS	A4.2 STUDENT SUPPORT AND GUIDANCE	A5 PD, RESEARCH AND SCHOLARSHIP
<p>Design and develop accessible and inclusive learning experiences and resources and adapt materials for diverse learners.</p> <p>Enable learning environments that promote collaborative learning opportunities among learners, teachers and communities.</p> <p>Evaluate and implement educational technologies and innovations to support the development of effective learning environments.</p> <p>Develop capability building activities and support for teaching teams to develop their understanding of effective learning environments.</p>	<p>Design and develop learning activities that scaffold learning to build towards achievement of graduate learning outcomes.</p> <p>Design and develop learning resources that incorporate academic and other student support.</p>	<p>Engage with and contribute to research in learning and teaching to inform practice.</p> <p>Evaluate practice and innovations through evidence and evaluation frameworks.</p> <p>Contribute to professional bodies and communities of practice in teaching and learning.</p> <p>Engage in relevant capability building activities.</p>

PSF Core Knowledge

K1 DISCIPLINE KNOWLEDGE	K2 TEACHING PRACTICE	K3 HOW STUDENT LEARN
<p>Relevant and current learning design standards and frameworks.</p> <p>Ability to translate discipline specific activities for a general audience.</p>	<p>Current teaching practices in the discipline.</p> <p>Alternative designs and learning materials to deliver on the same outcomes to facilitate a diverse range of students to learn equitably.</p>	<p>Ways to design and develop support materials for learners across a course.</p> <p>The implications of learners' discipline backgrounds on the unit or course design.</p>
K4 LEARNING TECHNOLOGIES	K5 EVALUATING YOUR TEACHING	K6 QUALITY ASSURANCE AND ENHANCEMENT
<p>Minimum standards and best practice in design and development of digital resources.</p> <p>Application of accessibility standards for creating premium digital resources.</p> <p>Ways to implement innovative, accessible and inclusive educational technologies.</p>	<p>Ways to evaluate practice and the impact on student learning and experience.</p> <p>Ways to use evidence to implement changes to practice.</p>	<p>Deakin and faculty teaching and learning policies and procedures.</p> <p>Ways to review and monitor student feedback of practice.</p> <p>The practice and importance of evidence-based teaching practice for teaching teams.</p>

PSF Professional Values

V1 RESPECT DIVERSE LEARNERS	V2 PROMOTE PARTICIPATION & EQUALITY	V3 USE EVIDENCE-INFORMED APPROACHES	V4 ACKNOWLEDGE THE WIDER CONTEXT
<p>Design inclusive and accessible learning environments, activities, resources and assessments.</p> <p>Demonstrate and promote indigenous and other cultural competence and awareness in teaching and in student interactions.</p>	<p>Design a variety and choice of learning activities, resources and assessments to support the success of all learners.</p>	<p>Engage in reflective practice for teaching.</p> <p>Contribute to scholarship of learning and teaching through sharing of practice, developing evidence-based approaches, research into dissemination and/or application of research.</p> <p>Seek opportunities for relevant capability building activities.</p>	<p>Implement university, faculty and discipline priorities into practice.</p> <p>Be aware of trends and issues around curriculum design within the wider Higher Education (HE) context.</p> <p>Be aware of the changing nature of student demographics and implications for practice.</p>
